COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

CDPH Statewide Travel Advisory

- For more information: [CDC Travel Guidelines](#)

Confirmed California COVID-19 Cases - Per California Department of Public Health Tracking COVID-19 as of 05/18/22 at 1630 hours:

- 8,757,871 total confirmed cases.
 - 70,245 Delta
- 90,219 total deaths.
 - 262 Delta
- Please see the most recent "Situation Report - COVID-19" attachment for additional details.

Heavy Rain Flash Flooding / Debris Flow							
Snow							
Coastal Flooding							
Risk Levels	Little to None		Minor	Moderate	Major		Extreme

Weather Key Points

Regional Operations Center

Western Region

Thursday, May 19

- Very warm temperatures will persist for many areas of the state into next week, with slightly cooler temperatures on Friday.
 - Daytime temperatures in the lower 90s will remain likely across the Central Valley and inland southern California, with readings exceeding 100 degrees over the southern desert areas through Thursday.
 - Temperatures warming Saturday, with very warm temperatures Monday through the week.
 - Minor to moderate heat risk impacts will continue many afternoons through into early next week
- Increasing North to Northwest winds across the state on Thursday, and continuing into Friday, especially for the Central Valley
 - Wind gusts of 20 to 35 mph are expected, with gusts of 40 to 55 mph possible, especially for the Central Valley, Sierra Nevadas, and mountains of southern California
 - Fire weather conditions will become elevated to locally critical Thursday through Friday, particularly for the Northern and Central Valley
- No precipitation is expected across the state into early next week

Precipitation Forecast

Regional Operations Center

Western Region

Thursday, May 19

No significant precipitation is expected the next 3 days

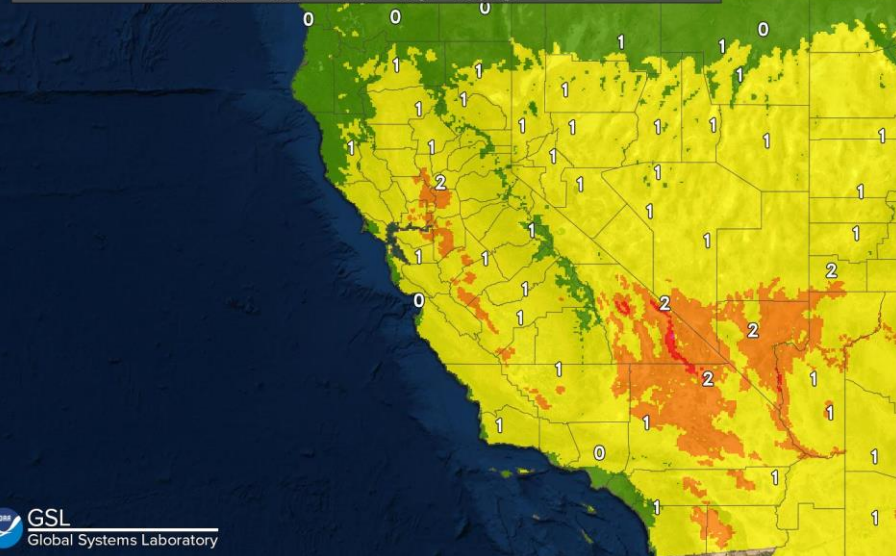

Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

Precipitation (inches)

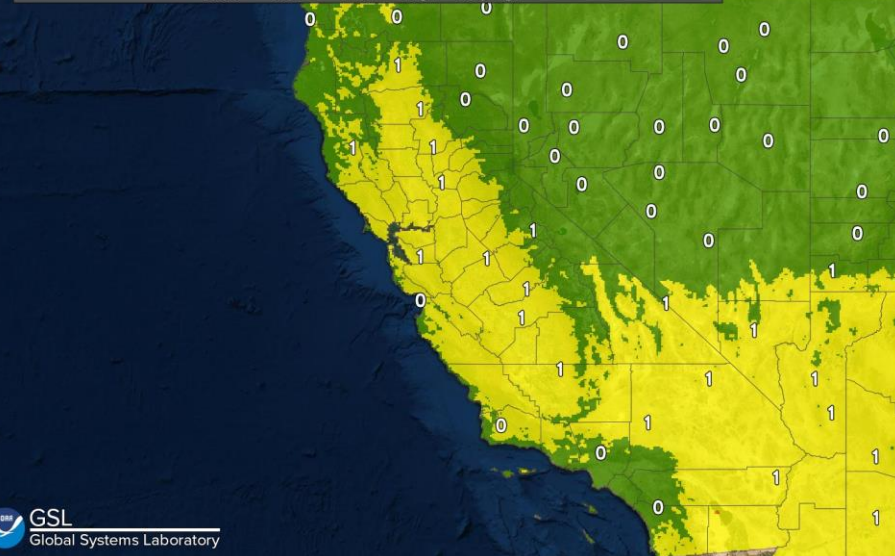

Thursday's Forecast HeatRisk

None Low Mod High Very High

Friday's Forecast HeatRisk

None Low Mod High Very High

Green	Level 0	No Elevated Risk
Yellow	Level 1	Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration
Orange	Level 2	Moderate Risk for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration

Red	Level 3	High Risk for much of the population, especially those who are heat sensitive and those without effective cooling and/or adequate hydration
Magenta	Level 4	Very High Risk for the entire population due to long duration heat, with little to no relief overnight

Weather Outlook (6-14 Days)

Regional Operations Center

Western Region

Thursday, May 19

6-10 Day Outlook (May 24 - May 28)

Temperatures

- Above normal temperatures are favored statewide

Precipitation

- Below normal precipitation is favored for much of the state, with near normal precipitation favored across far southern California and far northern California

8-14 Day Outlook (May 26 – June 1)

Temperatures

- Above normal temperatures are favored for the majority of the state, with near normal temperatures favored across far northern California

Precipitation

- Below normal precipitation is again favored for most of the state, with near normal precipitation favored for far southern California and far northern California
